

Digital Transformation Plan for Fortunate Hub

1. Executive Overview

- This document outlines a structured plan to build a full digital system for Fortunate Hub.
- The goal is to improve sales, streamline operations, and enhance customer experience.

2. Phase 1 – MVP (4–6 weeks)

- Mobile-friendly website with menu and pricing
- Cart and checkout system
- Payment integration (Paystack/Flutterwave)
- Basic admin panel for viewing and updating orders

3. Phase 2 – Operations System

- Full order tracking system
- Customer accounts and order history
- Sales dashboard and reporting
- Role-based staff access

4. Phase 3 – Automation & Growth

- Inventory tracking system
- Automated stock updates
- Customer loyalty and referral programs
- Promotions and discount engine

5. Phase 4 – Expansion Features

- Gym membership system
- Lounge reservations
- Event booking system
- Multi-branch scalability

6. Business Value

- Increase daily orders and revenue
- Reduce operational errors
- Improve customer satisfaction
- Enable data-driven decision making

7. Monetization Options

- One-time build fee
- Monthly subscription model
- Hybrid pricing model (recommended)

8. Technical Stack

- Frontend: React / Next.js
- Backend: Node.js or Firebase
- Database: PostgreSQL or MongoDB
- Payments: Paystack, Flutterwave

9. Key Risks & Solutions

- Staff resistance → Provide training
- Poor internet → Optimize performance
- Payment trust issues → Use trusted gateways
- Owner engagement → Show early results

10. Success Metrics

- Daily online orders
- Revenue growth
- Customer retention rate
- Order processing efficiency
