

Fortunate Hub: Digital Transformation

Phase 3: Automation & Growth

Project Overview

This phase introduces automated systems to reduce manual overhead and marketing tools to drive customer retention.

Core Features

- **Inventory Tracking:** Automated stock management and low-stock alerts.
- **Loyalty Programs:** Systems for customer referrals and reward points.
- **Promotion Engine:** Management interface for discounts and seasonal offers.

Technical Strategy & Suggestions

- **Dynamic Pricing:** Build a flexible coupon service capable of handling various discount logics (percentage vs. flat rate).
- **Proactive Management:** Set up automated alerts (CRON jobs) for inventory thresholds to prevent stockouts.
- **User Retention:** Integrate simple referral links that customers can share via social platforms easily.
